Murach`s JavaScript and DOM Scripting: Training & Reference

By Ray Harris

Shroff Publishers/Murachs, 2009. Softcover. Book Condition: New. 18 x 24 cm. Want to create websites that deliver the fast response times, dynamic user interfaces, and special effects that today`s users expect? Then this is the book for you! Whether you`re just starting out in JavaScript or whether you`re ready to move into DOM scripting, it gives you the skills you need. Here`s how: 1: It`s 2 books in 1: A JavaScript book and a DOM scripting book Most books cover JavaScript or DOM scripting. But to create user-responsive sites, you need to know both. So the first half of this book is a course in JavaScript essentials. Then, the second half is a course in DOM scripting that gives you a clear understanding of how DOM scripting works, how JavaScript underlies it, and how to use it to build applications that run slide shows, use drop-down menus, rotate headlines, sort tables, provide animation, and more! That means you can gain basic to expert skills in a single book. 2: It provides a fast start Section 1 is a crash course in JavaScript. In fact, by the end of chapter 3, you`ll know how to code, test, and debug applications that...

Reviews

This book is great. it absolutely was writtern quite properly and beneficial. Its been written in an extremely basic way and it is merely after i finished reading through this ebook in which basically changed me, affect the way i really believe.
-- Leopold Schmidt

It is really an awesome ebook that I have ever read. It typically fails to expense a lot of. I am very easily can get a enjoyment of studying a written ebook.
-- Delphia Fay
