Brand New Book ***** Print on Demand *****.This book, while bringing to bear on the problem of knowledge the more recent points of view, both psychological and philosophical, aims chiefly at helping the reader in the culture and practical uses of the mental life. Thus it considers not only the nature and guaranties of knowledge, but especially how knowledge may be used to attain its most important ends. These are the ideals and the behavior that have value. For such . as are seeking a satisfying answer to the inquiry propounded by this volume a veteran thinker here cuts an easily traveled path through the mazes of the subject, clearing it of entanglements, and steadily keeping in view its issues in practical value for the rational conduct of life. - The Outlook. The man of learning who puts into a little book his best and most availably useful thought, so simply expressed that all who are intelligent, with or without technical training, may understand, does an eminently good...
