Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In more than few instances we all have come across parents doing funny baby talk to their kids and puzzled why do they do it? This indeed is a great way to make kids listen to them. Also such baby talk will ensure that the kids dont get distracted while observing the necessary information from their parents talk.Talking to kids in a way they like is mandatory as it directly affects the way they mould up in life. Studies have revealed that kids listening to more words and understating more words before they complete three years of age will help to be successful in their academics.Talking to kids is really important for every parent as they want to raise well-civilized, talented, disciplined and kind-hearted kids. The biggest challenge in talking to kids is their attention span. It is believed that the maximum attention span of a child as their parent talk is only one minute. And this one minute i.e. the first minute of your conversation decides how powerful it is going to be. For parents those who are struggling to make their kids listen to them, this book will serve as an ultimate guide to get closer to their children.
