Committing unconscious automatic actions may cause people to feel that they are being compelled by a mysterious power. With the knowledge of neuroscience and this new hypothesis, this book explains the generation of different behaviors in lay language and with illustrations in order to unveil this mysterious phenomenon. Through reading, you will understand how habit is formed; how we can optimize our skills; why we dream; how subconscious is produced. .1999 About the author Zhiyin Shan holds a MD degree from the Zhejiang University School of Medicine.
