Brookings Institution Press. Paperback. Book Condition: New. Paperback. 311 pages. With each passing day, Pakistan becomes an even more crucial player in world affairs. Home of the worlds second-largest Muslim population, epicenter of the global jihad, location of perhaps the planets most dangerous borderlands, and armed with nuclear weapons, this South Asian nation will go a long way toward determining what the world looks like ten years from now. The Future of Pakistan presents and evaluates several scenarios for how the country will develop, evolve, and act in the near future, as well as the geopolitical implications of each. Led by renowned South Asia expert Stephen P. Cohen, a team of authoritative contributors looks at several pieces of the Pakistan puzzle. The book begins with Cohens broad yet detailed overview of Pakistan, placing it within the context of current-day geopolitics and international economics. Cohens piece is then followed by a number of shorter, more tightly focused essays addressing more specific issues of concern. Cohens fellow contributors hail from America, Europe, India, and Pakistan itself, giving the book a uniquely international and comparative perspective. They address critical factors such as the role and impact of radical groups and militants, developments in specific key regions such as Punjab and the rugged frontier with Afghanistan, and the influence of and interactions with India, Pakistans archrival since birth. The book also breaks down relations with other international powers such as China and the United States. The all-important military and internal security apparatus come under scrutiny, as do rapidly morphing social and gender issues. Political and party developments are examined along with the often amorphous division of power between Islamabad and the nations regions and local powers. Uncertainty about Pakistans trajectory persists. The Future of Pakistan helps us understand the current circumstances, the relevant actors...
